Display size

All Metal Construction

Rugged steel construction for commercial use and withstanding frequent operations. The landing pole is slender, light and easy to move.

Full 360° Rotation

With a swivel ball head, the enclosure can be freely rotated and flipped, as well as the tablet can be easily switched between landscape and portrait. Give users the best visual and experience.

Key Lockable Enclosure

Lockable enclosure ensures security and theft protection. The flip type can quickly load or unload tablet.

Internal Cable Management

You can hide the cable inside the pole to keep the appearance clean and neat.

Adjustable Tightness

Adjust the tightness of the ball head by L-wrench as shown below for best and friendly rotating operation. Adjustable tightness also extends product life.
